

Hand made bespoke kitchens,
bedrooms, bathrooms and furniture
for any room in the home

Issue 4

The Furniture

Each and every single piece of furniture we design is handmade using maple (solid oak, walnut and tulip wood on specification). The Great British furniture used in our designs can stand the test of time, and is made using the finest, responsibly sourced timbers, from well-managed forests.

Everything we do is custom-made to order, meaning the furniture is totally unique to you. We work closely with our clients to design their dream home.

Our Sustainable Pledge

We are proud to support The National Forest Foundation. Each and every single piece of furniture we design is made using sustainably sourced timber. We are passionate about sustainability, and that is why we plant a tree for every furniture project we design, and you will receive a certificate to show your support too.

Mylands Ludgate Circus

In-Frame Staff Bead Shaker

A truly classic kitchen design for a period property, featuring bi-fold doors for the kitchen larder to ensure there was no wasted storage space, or hard to reach awkward cabinetry.
