CONTENTS

ELEGANT SOLUTIONS FOR STYLISH BATHROOMS

Create beautiful spaces with Multipanel waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our wall panel collections come in a range of sizes and finishes, including tile, marble, stone and wood, offering a range of design possibilities to suit bathrooms of all shapes and sizes.

Hydrolock®, our unique tongue and groove installation system, makes it possible to join panels together without the need for profiles to create a smooth, almost seamless expanse of waterproof walls which will stay pristine for years to come.

REFRESH YOUR BATHROOM, CREATE YOUR DREAM HOME

Tile Collection - Metro

Visit our website to plan your new bathroom and order samples.

STYLE GUIDE

Create the perfect pairing with decorative panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections with the subtle plain tones from the Pure Collection to create a bathroom design that is uniquely yours.

We've carefully selected our favourite combinations to help you create your dream bathroom. How will you pair yours?

Example of a creative combination: Sage Green from the Pure Collection combined with White Gypsum large tile and Alpine White metro tile from the Tile Collection. Floor is Monza from Tile - Grout Edge range.

CREATE YOUR OWN DESIGN

Use our Room Visualiser to bring your ideas to life at multipanel.co.uk/visualiser

STEP 1

CHOOSE YOUR FAVOURITE DECOR

Start by choosing your favourite décors from the Tile, Linda Barker, Contemporary, Classic or the marble and mineral décors from the Pure Collection

STEP 2

FIND THE PERFECT PAIRING

Select a plain colour from the Pure Collection to combine with your feature wall decor

STEP 3

SEAL THE JOB

Match your profile colour to your shower enclosure and shower fittings (see page 54). Seal your installation using one of our colour match sealants (see page 56)

STEP 4

FINISHING TOUCHES

Complete your dream bathroom with our selection of flooring. From tile to chevron, there's a finish for every taste (see page 52)

WHY MULTIPANEL®?

OUR COMPANY

Since 1881, Grant Westfield has been dedicated to manufacturing exceptional interior building products in Edinburgh. Throughout the course of over 140 years, successive generations have upheld a shared passion for craftsmanship, high quality, and innovation. In 2003, we introduced Multipanel, the United Kingdom's leading bathroom wall panel and in over two decades sales have grown to over 1 million square metres per year.

The launch of the Multipanel range aimed to offer a contemporary alternative to traditional tiles—one that not only boasts an appealing aesthetic but also ensures effortless installation and convenient maintenance. The range has evolved significantly, now encompassing an extensive selection of cutting-edge designs. From trendy plain colours to realistic material reproductions, and most recently, our award winning Tile Collection, with many advantages.

Watch a video of Multipanel's manufacturing process

QUALITY

Our reputation is built on the exceptional quality of our products. We have full confidence in their durability, which is why we offer a comprehensive 30-year warranty. To ensure the highest quality, our raw materials undergo meticulous testing to ensure compatibility with our precise Hydrolock® joint. Our commitment to excellence extends across all aspects of our business, as demonstrated by our ISO 9001:2015 certification for quality management and our ISO 14001 certification for environmental management.

Easy to keep clean

Quick and easy to install

Fully waterproof

Grout free installation

Can be installed over tiles

HYDROLOCK®

We created Hydrolock® to enhance the visual impact of our wall panels. Precisely engineered, the Hydrolock® edge allows panels to be joined together, without the use of mid-joints, to create a smooth, almost seamless expanse of waterproof walls. With an industry leading 6mm tolerance, for fitting over uneven walls, Hydrolock® panels are easy to install and produce a great finish every time.

Hydrolock® panels are available in a range of widths for ease of installation;

2400 x 598 mm
2400 x 900 mm
2400 x 1200 mm
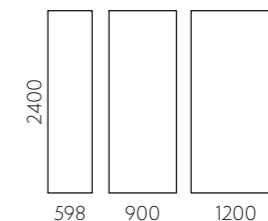

2400

598   900   1200

The Hydrolock® joint reduces the finished face by 18mm i.e. 2400mm x 1200mm becomes 2400 x 1182mm. Straight edge panels are also available.

View our Hydrolock 6mm tolerance in action

PANELS V TILES

Style and design are key to creating the bathroom of your dreams. Multipanel luxurious bathroom wall panels offer a modern alternative to tiles that are stylish and on trend, as well as providing more practical benefits listed below:

	Multipanel	Traditional Tiles
Fully waterproof	✓	✓
No grout required	✓	X
Resistant to mould	✓	X
Quick and easy installation	✓	X
30 year warranty	✓	X

30 YEAR WARRANTY

Backed by over 20 years of product research and development, we're confident that our wall panels and click flooring can deliver superior quality and durability, which is why they are equipped with a 30-year warranty.

- Declaration of Performance (DOP) documents are available at multipanel.co.uk
- Installation guidelines and full details on each product warranty can be downloaded from multipanel.co.uk, or emailed on request
- Multipanel High Grab Panel Adhesive/Sealant must be used and is available to order from your local distributor or showroom
- Multipanel 30 year warranty* covers the unlikely failure of the product, and will be invalid if any published installation and care guidelines are deemed not to have been followed

*Applies to all Multipanel Wall Panels and Click Flooring
Full warranty details for all products are available at multipanel.co.uk/30-year-warranty

SUSTAINABLE MULTIPANEL

MADE IN BRITAIN

We're proud members of Made in Britain and all Multipanel wall panels are manufactured in our Edinburgh factory. We source over 90% of our raw materials from the UK & Ireland, supporting the local economy and minimising our impact on the environment.

FSC®-CERTIFIED

Multipanel is FSC®-certified. This ensures the timber we use originates from responsibly managed forests and other controlled sources, and our finished products comply with globally recognised ecological, social and economic standards for complete customer assurance on responsible sourcing.

RECYCLABLE PRODUCT

Our panels are 100% recyclable and we recycle 99% of post-production waste into biomass materials. We've also achieved ISO 14001, demonstrating our commitment to the environment.

Read more on our sustainability initiatives at multipanel.co.uk/ sustainable-multipanel

EPD

We're proud to have obtained an Environmental Product Declaration (EPD) for all our UK Multipanel collections. The EPD covers environmental impacts from cradle to grave and has been independently verified to help you choose products that support carbon emission reduction.

WALL PANEL PROFILES

To finish off edges or to join panels in a corner, the appropriate profiles must be used. Use the table to help you select the right profiles for your design.

All vertical profiles are 2.45m long aluminium with 11.5mm depth. The base profile is aluminium, while the wall to floor, and bath/shower tray seal kits are white PVC.
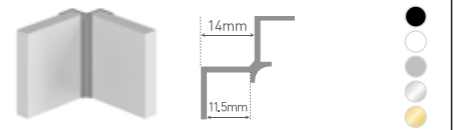

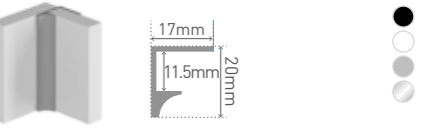

Please note: All 3D drawings are a generic representation of the profile type. Dimensions specific to each range are shown on the line drawings.
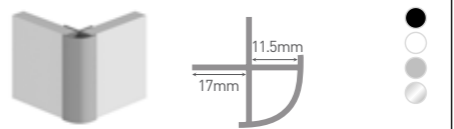

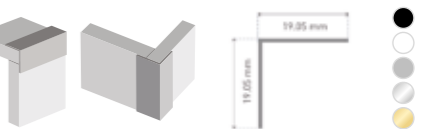

Scan to view our profiles online

Available Colours

- Matt Black
- White
- Satin
- Polished
- Brushed Brass

INTERNAL CORNERS (90°)

Used to connect two panels at right angles, such as within shower enclosures, and around baths.

Invisible Corner Type 101 MPIHCML	**Internal Corner** Type A MPIA	**Last Corner** Type Y MPIAL
✓ No visible aluminium ✓ Seal gap with coloured silicone	✓ Curved visible fascia ✓ Greatest tolerance for non-square corners	✓ Curved fascia matches Type A Internal profile ✓ Fits to face of second panel, making recessed areas and the last corner of a whole room easy to fit

EXTERNAL CORNERS (270°)

Used to connect two panels at reflex angles (270°), such as where a recessed shower/bath meet adjacent walls. The Angle profile is also particularly versatile and easy to fit for pipe boxing, window recesses and niche shelving recesses.

Flush Corner Type 100 MPEX	**External Corner** Type B MPEA	**Angle Profile** Type 102 MPAP
Internal / External ✓ Versatile profile for use on both internal and external corners ✓ Squared visible fascia as alternative to rounded Type A (internal) and Type B (external).	✓ Curved visible fascia ✓ Panels slot into both sides of profile	✓ Squared visible fascia ✓ Fitted over the face/end of two panels

END CAPS

Used to finish off the end of a run of panels. End caps are also an alternative to the angle profile for boxing in and recesses.

STRAIGHT JOINTS

Used to connect two panels at reflex angles (270°), such as where a recessed shower/bath meet adjacent walls. The Angle profile is also particularly versatile and easy to fit for pipe boxing, window recesses and niche shelving recesses.
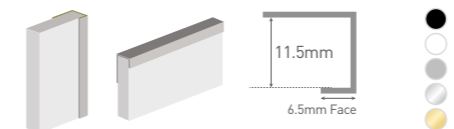

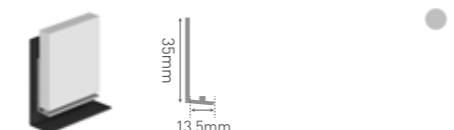

End Cap Type C MPEC	**Hydrolock**	**Mid-Joint** Type D MPCH
✓ Discreet 6mm visible face ✓ Can be used vertically (out-with a shower enclosure) or horizontally (half height panelling out-with the wet area, or splashbacks)	✓ Discreet interlocking connection between panels, without using a mid-joint profile ✓ Please see P.9 for further information	✓ Alternative to Hydrolock connection between panels

BASE

At the base of the panel, we offer solutions for wetrooms, as well as over baths/shower trays. The latter is also commonly installed with no base profile, leaving a 3mm gap between the panel and the bath/tray, and filling with silicone sealant.

Base Profile Type X MPBPSA	**Floor to Wall** Type 103 MPWFWH	**Bath/Shower Tray Seal Kit** MPSEAL
✓ Used in wetrooms, typically 100mm off the floor, with floor covering fitted behind the profile upstand. ✓ Aluminium	✓ Transition profile for wall panels to sheet vinyl flooring ✓ Permits replacement of flooring without removing wall panels.	✓ Used over shower tray / bath, to seal the base of the panel, and provided added protection against water ingress behind the tray/bath. ✓ PVC

INSTALLING OUR PANELS WITH MULTIPANEL ADHESIVE

Multipanel has been designed with easy installation in mind. For the best result we recommend that panels are joined together using our unique Hydrolock® tongue and groove system. Panels using this system can be installed directly onto almost any surface, including uneven walls and over the top of old tiles. Multipanel High Grab Adhesive should be used for a safe and secure fit.

To join panels at a corner and to finish any exposed edges, the appropriate profile should be used. Panels must be completely silicone sealed at all edges using Multipanel sealant, whether they are being attached to profiles, shower enclosures or joined using the Hydrolock® system to ensure a 100% watertight result.

Our Multipanel Light Grey adhesive has been designed to replicate the exact grout colour that is used in our Tile Collection décors.

- Multipanel High Grab Adhesive x 3
- Multipanel Coloured Silicone Sealant x 1
- Multipanel Clear Silicone Sealant x 1
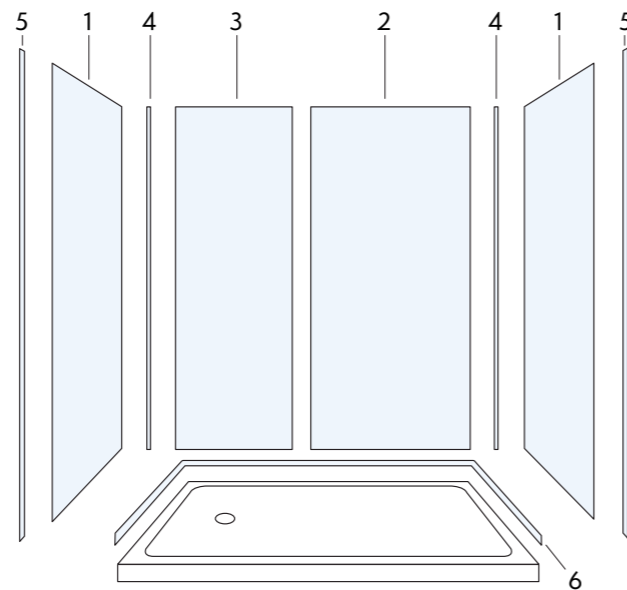

INSTALLATION TIPS

- Panels should be installed on the top of shower trays or baths using a Multipanel seal kit
- Match your profile colour to your shower enclosure and shower fittings
- Seal your installation using one of our colour matched sealants (see page 57)
- Carefully measure your area to select the right panel width, choose from 1200mm, 900mm and 598mm (remember, the Hydrolock® joint reduces the finished face by 18mm)
- Panel off cuts can be used behind sinks for a coordinated look. Just ensure you seal all exposed edges with profiles and silicone

LEARN WITH MULTIPANEL

To help support installers, we created Multipanel University, a training programme designed to provide installation guidance and advice on how to install our panels.

Upon completion, you will receive a certificate of qualification and be entered into a prize draw to win a £50 Amazon gift voucher*.

VIRTUAL WORLDS
We're also available on Virtual Worlds in a variety of our local merchants.

NATUREPANEL®

Explore our sister brand Naturepanel, the modern alternative to traditional slat wall. Designed with the same spec as Multipanel, Naturepanel is suitable for the bathroom but also the wider home such as living rooms and dining rooms. The Hydrolock joint makes Naturepanel fully compatible with Multipanel, giving the option of multiple finishes in the same interior space!

- Easy to keep clean
- 100% waterproof
- Quick & easy to install
- 30 year warranty
